## PRACTICAL INFORMATION

The Reflection Platform / Porto is based on an idea of sharing experiences on dance field. The activity is based on one big thematic – Creation – and two others themes: Forms and formats of dance and Mobility and Exchange.

But the most important thing to bring to the activity will be the experiences more than just knowledge. Specially because we are professionals living far from each other and acting in different fields. The curiosity to get know what each one have been doing will be the most exciting guidelines. Of course, all of us works on different points of the same creative area – dance -, and within that, everybody will have a lot of to share.

The presentation of the 1st will be a moment to discover a bit about the other. Will be a nice moment for the participants introduce themselves to the group. For that, you can bring images, videos, books, histories to let the others start to discover you. If you need some special need just let us know in time in order to prepare it. Or perhaps you would like to propose to do something different ... Cool ... Just watch out your time ....

Our meetings will be divided in moments just for the group and other moments that is open to other interested people on listen, talking, asking and also sharing experiences.

The program is open enough to accept new ideas, others talks and different ways. Sometimes to wonder drive us to a new ideas or give us new ways to look to something. Let it go ... Also we can discover some similarities and wants to start a new collaborations ...

We'll have the possibility to see a showcase of young artists (on two days with different programs). We'll meet at the hotel at 9pm and walk to the theatre. Some days we'll go out to see and discover the city. Wear your most comfortable shoes and let's go!

The Portuguese team propose themselves to collect some materials – notes, texts, images – in order to make a brochure about the Reflection Platform. Of course, everybody can collaborate on that, also taking notes, writing a text or taking some images. If you want to collaborate to collect the material, just give it to one of the portuguese participants.

Any question or requires you can talk with Alberto and Solange. Will be happy to help you. If we could do in the right moment, will be great. If not, we'll try our best to do it as fast as possible.

Our communication will be in English.
